SUMMARY

Senior Node.js & AWS Cloud Engineer with 9+ years of expertise in architecting high-performance, scalable applications. Specializing in Node.js (Express, HapiJS), AWS (Lambda, DynamoDB, API Gateway), and microservices. Proven ability to reduce system latency (30%), optimize ETL pipelines (40%), and enhance deployment efficiency through CI/CD automation. Passionate about designing event-driven architectures and leading cross-functional teams to build secure and resilient cloud-native solutions. AWS Certified Solutions Architect – Professional.

TECHNICAL SKILLS

- Backend:** Node.js (Express.js, HapiJS), TypeScript, JavaScript, Python
- Frontend:** Angular 8+, RESTful APIs, HTML5, CSS3
- Cloud & DevOps:** AWS (Lambda, EC2, S3, RDS, DynamoDB, API Gateway, IAM, CloudFormation, SQS, SNS, Step Functions), Jenkins, GitHub Actions, Terraform, Docker, Kubernetes
- Databases:** PostgreSQL, MySQL, MongoDB, DynamoDB
- Testing:** Jest, Mocha, Chai, HapiLab
- System Design:** Microservices, Event-Driven Architecture, Serverless Computing
- Methodologies:** Agile (Scrum/Kanban), TDD, BDD

RELEVANT EXPERIENCE

- Lead Software Engineer, AIRBUS**

Oct 2022 - Present

 - Developed cloud-native applications for aircraft customization using Node.js, Angular, and AWS, reducing system latency by 30%.
 - Optimized an ETL pipeline using AWS Glue, cutting job execution time by 40%.
 - Led a team of 5 engineers in designing and deploying scalable microservices, enhancing system reliability.
- Software Consultant, CAPGEMINI**

Apr 2021 - Oct 2022

 - Managed 50+ microservices on AWS, ensuring 99.99% uptime for a restaurant management platform.
 - Migrated deployments from Jenkins to AWS Lambda, reducing downtime by 35% and improving scalability.
- Software Engineer, CGI INFORMATION SYSTEMS**

May 2020 - Apr 2021

 - Converted a legacy healthcare management application from Visual Basic to Node.js and Angular for enhanced performance and scalability.
 - Deployed the application in AWS using serverless architecture, improving efficiency and reducing infrastructure costs.
- Software Engineer, ANBLICKS SOLUTIONS**

Jul 2019 - May 2020

 - Developed AI-based image recognition service for real estate app using Node.js and AWS services.
- Software Engineer, DOCHE CLOUD TECHNOLOGIES**

Jun 2017 - Jul 2019

EDUCATION

- Jawaharlal Nehru Technological University**

Mar 2013 - Mar 2017

 - B.Tech - Computer Science & Engineering

ADDITIONAL INFORMATION

- Certifications:** AWS Cloud Solutions Architect Associate, Agile Software Development (Coursera)
- Awards/Activities:** Spot Award(2023) and First Prize for an innovative avionics concept and POC.
